ABOUT ME

Informatics student focused on Software Development with hands-on experience in building web and mobile applications through academic and personal projects. Passionate about creating user-centered digital solutions using technologies such as Next.js, TypeScript, and Flutter, while continuously improving technical and problem-solving skills.

EDUCATION

Universitas Ciputra **Expected graduated at 2027**

Major in Informatics Multimedia and Technology August 2023 - Present

PROJECTS

LUMORA | Marketplace Platform

Next.js, TypeScript, Tailwind CSS

- Purpose: Built an e-commerce platform featuring product catalogs and shopping cart functionality.
- Development: Developed using Next.js and TypeScript with a focus on maintainable code, responsive design, and type safety.

EVENTIFY | Event Management App

Flutter, Dart

- Purpose: Developed a cross-platform mobile application for event discovery and digital registration.
- Development: Built with Flutter and Dart with a focus on intuitive UI/UX and state management.

ORGANIZATION EXPERIENCE

Google Developer Groups — Publication, Design, and Documentation **November 2024 - Mei 2025**

- Led the Publication, Design, and Documentation division, coordinating visual content and event documentation for community programs and technical workshops.
- Participated in hands-on learning sessions and workshops covering Java, Kotlin, HTML, and other software development topics delivered by mentors within the Google developer community.

Student Union — Publication, Design, and Documentation Staff **June 2024 - August 2025**

- Contributed to the Publication, Design, and Documentation division by producing visual materials and documenting organizational activities.
- Frequently served as the division lead for multiple programs, coordinating team members and ensuring the successful execution of publication and documentation deliverables

Eterna Indonesia - Full Stack Developer **Juni 2026 - Oktober 2026**

- Developed end-to-end back-office portal features, including a recruitment pipeline, analytics dashboard, and internal ticketing system using Next.js, TypeScript, PostgreSQL, and Prisma.
- Optimized web performance with React Suspense, standardized APIs, and resolved critical UI and database bugs for production deployment.

TECHNICAL SKILLS

- Languages: TypeScript, Dart, HTML, CSS, Kotlin
- Frameworks: Next.js, Flutter, Tailwind CSS, Laravel, React
- Tools: GitHub, Visual Studio Code
- Databases: MySQL, PostgreSQL, Firebase

SOFT SKILLS

- Leadership
- Communication
- Problem Solving
- Team Collaboration
- Adaptability

EXPERTISE

- Frontend Web Development
- Mobile Application Development
